## A PARTNERSHIP FOR PROSPERITY

As an organization based in the European Union, the Global Chamber of Business Leaders became a full member of the SEDIA system at the European Commission on the 1st of May 2023.

With this, GCBL is involved in various initiatives and projects related to electronic systems and digitization in the European Union. It is particularly entitled to the financing of programs and projects by the European Commission. It also has direct access to tenders issued by the European Commission which are global.

It's important to note that the European Commission's global role is carried out in collaboration with other EU institutions, member states, and international partners, like the Global Chamber of Business Leaders. Dear global business leaders,

I am honoured to have been entrusted with the position of President of the Global Chamber of Business Leaders nearly four years ago. Our organization not only provides essential solutions for global economic recovery, resilience, and improved connectivity in this transformative future, but also offers exceptional service to our esteemed members and partners through a solid network of world-class connections, collaborative opportunities, and mechanisms for business growth.

At GCBL, we acknowledge the past decade of exceptional growth, as well as a decade of cooperation and trust that seems to have suddenly faded. We also understand that with every challenge comes an opportunity, which only needs to be recognized. We will continue to empower our members to embrace challenges and collaborate, becoming agents of change, leaders, and architects of a new and undoubtedly better future.

Remember, alone we can do so little, together we can always do so much.

Sincerely yours,

## A DECADE OF ACHIEVEMENTS

In 2014, we embarked on a mission to foster connectivity, trust, and peace, uniting and collaborating with all stakeholders. Despite numerous obstacles, we persevered with unwavering determination and compassion. Our resilience defines us, leading us to where we stand today - stronger, more expansive, and prepared to embrace the uncertainties of the future.

We continue to shape the path ahead, making the challenges of tomorrow inconsequential.

  
Kevin Costner  
Chair of IACC

## 10 YEARS OF OPPORTUNITY

The past decade epitomized a harmonious blend of cooperation and collaborative efforts, culminating in inevitable triumph. It was a period marked by interactions with diverse international stakeholders—some in amicable relations, others in fierce opposition. Throughout, we stood firmly on the side of a cooperative and coexisting future. Ours is an ideology founded on the principles of integration and unity, the only path we have embraced and will continue to uphold. Warmed up for new victories, we are waiting to create new opportunities for another decade of victories.

## WHAT IS THE GCBL?

The Global Chamber of Business Leaders (GCBL) is a united force that brings together the world's most influential business titans, government leaders, CEOs, executives, entrepreneurs, investors, and industry pioneers. Driven by a shared vision, we transcend borders to advocate for world peace, sustainable prosperity, and resilient business growth in an ever-evolving global economy. We believe that world peace is only possible through collaboration, and we have built a global network that unlocks unparalleled and limitless opportunities.

As a dynamic alliance of influential individuals and entities, GCBL is dedicated to fostering meaningful collaboration, delivering transformative value, and empowering our members to meet challenges and celebrate victories. Our strength lies in cultivating a deeply interconnected global community that drives revenue generation, advances international business cooperation, fosters innovation, and promotes lasting prosperity and peace. Together, we ensure that our partners, members, and participants stay at the forefront of shaping the future of business.

GCBL is more than a business network—it is a thriving ecosystem that transcends influence, fosters resilience, and embodies connectivity. We understand that interconnected businesses fuel growth, education unlocks new possibilities, and advocacy holds the power to drive transformation. With a global footprint spanning more than half of the world's nations through a network of local representatives, GCBL is not just an advocate for change but an active driver of progress, facilitating the best business connections, unlocking global markets, and bridging entities that would otherwise never collaborate.

Aligned with the UN Decade of Action, GCBL champions the integration of the Sustainable Development Goals (SDGs) into future business models. We are committed to shaping a future that transcends borders—a future defined by collaboration, sustainability, and shared prosperity. Together, we create progress, deliver impact, and build a world where businesses thrive and peace prevails.

## GOAL OF THE GCBL

In this pivotal Decade of Action, it is imperative for business leaders, government officials, and entrepreneurs worldwide to converge in this global marketplace. Here, the exchange of knowledge becomes the catalyst for fostering, encouraging, and propelling a new era of business cooperation and opportunities.

Together, we must collaboratively navigate the intricacies of this transformative business environment, positioning ourselves as active contributors to a global solution.

Acknowledging the paramount importance of intertwining innovative business models with sustainable strategies, our global mandate extends beyond mere participation. We commit to governance, policy development, and business evolution that resonates as a positive force across the environment, society, and the global economy.

This commitment, grounded in the ideals of promoting peace and fostering prosperity, underscores our collective responsibility to navigate the challenges of today while laying the groundwork for a sustainable and harmonious future.

## INTERNET AND SOCIAL MEDIA

At the Global Chamber of Business Leaders, we focus on visibility and interaction with our members and followers, so we are present on most social media, where you can find us under the official name "The Global Chamber of Business Leaders".

LinkedIn, Facebook, YouTube, or Instagram are just some of the channels through which you can also contact GCBL, and you are always welcome on our website: [www.gc-bl.org](http://www.gc-bl.org)

You will want to mark us in your post on social networks, so you can use the hashtag **#GCBL**

We look forward to meeting you in the virtual world as well.
